

PET PAWTRAITS

Our pets are the family we choose for ourselves - they love us every single day no matter what!

We're often asked, "Why do you photograph pets?"

Because our pets are our family! Because our pets have lives worth celebrating. Because our pets enter our lives for such a short time and forever leave pawprints on our hearts. Because pets make us better people and they deserve to have their lives captured, celebrated and honoured for generations to come. We aim to capture their character in their portraits to remind you of that bond every day for the rest of your life. And we'll create beautiful wall art for you to display and celebrate that connection.

Your pet(s) can be photographed either by themselves or with you and/or your family. And don't worry if they're not always perfectly behaved - we love photographing playful and mischievous pets, it makes for great photos!! Even nervous dogs are given plenty of time to sniff around and warm up to us. And we have lots of treats which makes us firm friends in no time!

Our pets are our family members - their story is also our story.
Their story deserves to be told!

We have gorgeous products to help you celebrate your beloved pet. The most popular would be Wall Art where you can see and enjoy them every day. Wall Art comes in a range of sizes and finishes and starts at €495. You can also choose to have a gorgeous portrait box or photobook, or even small prints or digital files - unframed prints start from €95 each and digital files from €150 each so there's something for everyone.

Let us help you celebrate your pet!
